

CAPABILITY STATEMENT

Connected capability across the energy supply chain.

Trip Ocean Limited is an integrated oil & gas services company operating internationally: one accountable partner for procurement, marine logistics, dredging, construction, equipment leasing, and oil & gas operations.

2013
Established

21+
Projects delivered

2
Countries

What we deliver.

Six connected service lines, delivered under one HSE and quality system with clear accountability from sourcing to close-out.

General Procurement

Sourcing, verification, expediting, and delivery of goods, services, and works: onshore and offshore: through a global OEM network.

Project Management

Planning, coordination, and controlled delivery, including equipment leasing agreements with operators and maintenance.

Marine Logistics & Support

Vessels, tugs, barges, freight forwarding, and waterfront support for offshore and near-shore scopes.

Dredging & Reclamation

Maintenance, capital, environmental, and emergency dredging to keep waterways navigable and shorelines protected.

Fabrication & Construction

Structural fabrication, welding, site construction, facility mobilization, and wellhead maintenance.

Oil & Gas Operations

Transport and storage of crude, gas, refined products, LNG, NGLs, chemicals, and lubricants across the supply chain.

WHY TRIPOCEAN

Differentiators.

01 Registered & compliant

company maximising local content under the applicable local-content regulations.

02 One accountable partner

Procurement, marine, equipment, and construction under one interface.

03 Evidence-led delivery

Inspected, documented, traceable deliverables ready for tender close-out.

04 Safety-first crews

PPE-ready teams with stop-work authority and a zero-harm target.
